Subject: Application No. 10/086,973

The proposed amendment to claim priority would render composition claims 57, 59-61, and 63-65 allowable, and necessitate rejoinder of withdrawn method claims 1, 3-16, 18-31, 33, 34, 36-41, 43, 44, 46-56, and 62. Examination of these claims, in particular claim 41, would require further search and consideration, particularly with regard to enablement and written description issues.
